

Waterman's Reef Observation Area

This area of reef is a key conservation area that has been kept as close as possible to its virgin state.

As a result, taking aquatic animals or plants is prohibited in this area, but you may catch fish from the shore with a rod or a handline. Please fish for the future and observe bag and size limits.

The Reef Observation Area runs from the northern side of Elsie Street to the southern side of Malcolm Street and extends 300 metres seawards of the high water mark.

Penalties apply.
